SUMMARY

Computer Science undergraduate majoring in Artificial Intelligence at West Visayas State University, with hands-on experience in AI/ML development, UI/UX design, and front-end web development. Skilled in translating ideas into functional, user-centered interfaces and interactive applications. Detail-oriented, collaborative, and motivated to contribute both technical and creative expertise to innovative projects and efficient workflows.

SKILLS

Spoken Languages: Conversational English and Tagalog; Proficient in Hiligaynon

UI/UX & Design: Wireframing, prototyping, accessibility design, usability testing; Figma, Canva

Front-End & Programming: HTML, CSS, JavaScript, React.js, Next.js, Tailwind CSS, Python, C++

Productivity & Media: Microsoft Office Suite (Word, PowerPoint, Excel); data encoding, document formatting; basic video editing, photography, photo editing

WORK EXPERIENCE

Call Center Inbound – Customer Service Support (Short-Term)

Iloilo, PH

IXL Solutions

May 2 – 10, 2022

- Provided short-term inbound support for a Floral Account, handling high-volume seasonal service requests and orders.
- Responded to customer inquiries and resolved concerns accurately within a fast-paced environment.
- Managed correspondence via email, ensuring messages were organized and addressed promptly.

RELEVANT PROJECT EXPERIENCE

UI/UX and Web Development Projects

Iloilo, PH

Group Project

Kantonize – SaaS Web App

Mar 2025 – Apr 2025

UI/UX Designer

- Created wireframes and interactive prototypes in Figma with a focus on accessibility, usability, and scalability.
- Designed custom UI/UX patterns aligned with application workflows and user needs.
- Collaborated with developers to refine visual hierarchy, improve usability, and deliver intuitive navigation.

Ipsync – Internship and Collaboration Website

Jan 2025 – Mar 2025

UI/UX Designer

- Led branding and visual identity to ensure consistent user experience across the platform.
- Designed interactive user flows and high-fidelity prototypes for internship listings and collaboration features.
- Conducted usability validation and assisted front-end structuring to ensure accurate design-to-code implementation.

Debunkr — Fake News Classifier

Apr 2025 – May 2025

UI/UX Designer & Front – End Developer

- Designed UI/UX wireframes and prototypes defining the application’s core interface and user flow.
- Implemented selected front-end pages and components based on Figma designs.
- Contributed to a web-based system for classifying Filipino fake news.

Pyrocapture — Carbon Monitoring App

Nov 2024 – Dec 2024

- Designed initial wireframes and interactive prototypes in Figma.
- Developed end-to-end interactive prototype flows to demonstrate core application functionality.

Ipsync Hub — Team Portfolio and Design Artifact Website

May 2025 – Jun 2025

UI/UX Designer & Front – End Developer

- Designed UI/UX wireframes and prototypes in Figma.
- Assisted in coding selected web pages and components.
- Conducted quality checks to ensure visual consistency, responsiveness, and usability.

Independent Project

Personal Portfolio Website — Next.js / Vercel

May 2025 – Jun 2025

- Built a responsive portfolio using Next.js, TypeScript, and CSS.
- Optimized for performance and deployed via Vercel.

AI/ML Projects — Hugging Face

Jan 2025 – Jun 2025

- Developed and deployed Streamlit-based ML applications for NLP, image, and tabular classification tasks.
- Integrated trained models into interactive interfaces and evaluated performance using Python.

Freelance & Client Project

Freelance Photographer

January 2023 – Present

- Provided photography services for community events, organizational activities, and individual clients.
- Delivered edited images for promotional, documentation, and social media use.
